- Livestock:** There are there 2 carthorses, 7 draught horses, of which 2 weak, 3 colts, 10 oxen.

* No account rolls survive for the manor or rectory estates of Morden for this accounting year, so this part-year survey is useful. It is not clear why the estimation was made by three tenants, not by the newly-appointed reeve, John Huberd, but the same happened on some other manors on this roll – Battersea, Benfleet, Fanton, Kelvedon and Wheathampstead.

† This only totals 60 quarters 5 bushel, so 1 bushel is not accounted for.

‡ This totals 16 quarters 1 bushel. (The quantities to be sold match the revenue to be raised at the forecasted prices.)
