<sup>§</sup> A valet [valettus] ranked above a groom [garcio] in a household. The large sum of 3s would have **bought** several pairs of shoes. However, emendend' may be a scribal error for emend', and if so the reference is to purchases and not repairs. Pleytere too is in trouble over shoes, but here the word is emend', and this perhaps strengthens the hypothesis that both entries refer to purchases. – Barbara Harvey Jan 2008,
