Know present and future that I John Koc have given, granted, and by this my present charter have confirmed to John Spyke<sup>1</sup> of Morden [Mordone] and Emma his wife eleven [sic] acres land with the moiety of one piece of meadow with hedges, fences and ditches, commons, easements and all its appurtenances in the fields of Morden, whereof nine acres land lie in a certain [codam=quoddam?] place which is called Gyllenelond and land of Robert Berneger<sup>2</sup> on the north and the king's highway on the south, and 4 acres land lie in a certain place which is called le Buttes between land of the abbot and convent of Westminster on the south and land of the prior and convent of Merton on the north, and it extends upon the common which is called Suttoneheth, and the aforesaid piece of meadow lies in a certain place called Gyllenemed as apportioned by agreement [sicut sors de condonat] with the aforesaid abbot and convent of Westminster in the aforesaid piece of meadow, to have and to hold the aforesaid fourteen [sic] acres land and piece of pasture with hedges, fences and ditches, commons, easements, ways, lanes, feedings and pastures and with all their appurtenances, to the aforesaid John Spyke and my  $[mei]^3$  heirs and his assigns freely, quietly, well and in peace of the chief lord for the services in respect thereof due and by law customary forever. <sup>&</sup>lt;sup>1</sup> John Spyk married Emma Edward, and inherited the Edward family virgate [E], but also held other copyhold, freehold and leasehold properties within Westminster abbey's manor of Morden. He farmed the abbey's demesne in the early 15th century.

<sup>&</sup>lt;sup>2</sup> Robert Berneger or Berenger was a witness to this charter, and is recorded in Morden manorial court rolls as holding an acre of land in Central Road [N3] until 1387 and a cottage probably in Morden Hall Road [I2] until 1391. Most of the land at Gildon Hill was either Westminster demesne land or held of Kynnersley manor. He was not the farmer of the abbey's demesne at this time, though it is possible that he held a sub-lease of a plot of demesne land. Members of the family held various cottages and smallholdings in the 14<sup>th</sup> and 15<sup>th</sup> centuries.

<sup>&</sup>lt;sup>3</sup> Is this a scribal error?
